-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, 4, 7-16 and 18-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Mirsky, 6,226,735.

Mirsky's Fig. 1 shows a reconfigurable apparatus including at least one reconfigurable unit, (Fig. 3 shows using a plurality of MCPes, note Fig. 2 which shows the details of a MCPE, to create a network processing structure including a ALU/MULTIPLY, element 304) having a plurality of at least 4-bit processing elements (e.g. the ALUs as illustrated in Fig. 2) and a plurality of at least 4-bit switch boxes (e.g. the MUXs 226,228 and 230 illustrated in Fig. 2) and at least one configuration signal and dynamically combining at least two of the at least 4-bit processing elements and at least one of the at least 4-bit switch boxes ... thereby forming ... ALU, (Fig. 9 illustrates chaining of ALUs to form a wider data path when performing an ALU or Multiply operation).

Contrary to applicants' remarks the claims are not limited to 4-bit processing elements because the claim language is "at least 4-bit processing elements". Relative to applicants' remarks Mirsky's elements ALU 3002 and multiplier 3004 are shown in Fig. 3 as element 304 with Fig. 3 described is using MCPes to create a network processing structure.

***Claim Rejections - 35 USC § 112***

3. Claim 12 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim is incomplete because it is dependent on a cancelled claim.

***Conclusion***

4. This is a RCE of applicant's earlier Application No. 10/730,114. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
